

## LENGTH OF THE PROGRAM

The internship program runs for a minimum of four weeks and students are welcome to stay on for longer to focus on specific projects and to explore even more of South-Africa.

It is clear that the volunteer program offers a great opportunity to any student to come to South Africa and to experience the realness of working with community and nature very closely. It is a great hands-on experience and definitely offers something memorable to take back home.

ONCE IN A LIFETIME

## ECCO VOLUNTEER PROGRAM

JOIN US NOW

A once in a life time opportunity to learn and explore South Africa's natural beauty through community work, research and environmental education.

## THE PROGRAM IS IDEAL FOR ANYONE

- Wanting to take a gap year.
- 18 years and older
- Experience the adventures that Africa holds.
- Passionate about people and the environment

## VISION

To provide an interactive community and nature based volunteer program where students can grow, reflect, explore and live life to the fullest through building friendships and invaluable memories.

## MISSION

It aims at equipping students in running community projects and to assist in improving lives of previously excluded people in South Africa, Mossel Bay.

Secondly to assist students in helping with data gathering for endangered species and other wildlife research projects through various hands-on wildlife projects in order to conserve and preserve the natural beauty of our country and town.

## WHAT ARE WE OFFERING

- We offer various projects and activities.
- Week 1: Wildlife & Adrenalin
  - Week 2: Research & Animal Husbandry
  - Week 3: Marine & Adrenalin
  - Week 4: Community & Heritage

Meet the heart of South Africa and it's people
